Using Dark Mode in 25Live

25Live offers you the option to switch to a darker theme. Some users prefer the darker theme to reduce eye strain, use the application in darker environments, save battery power on some devices, or improve accessibility for users with low vision or light sensitivities.

| System Settings | |
| User Settings | |
| | |

Use the More menu in the top navigation bar to access User Settings option.

2. Scroll Down to Set the Dark Mode Setting

Change the theme by toggling the setting for **Dark Mode** to **Yes**. Return and toggle the setting to **No** to turn off the darker theme.

3. Press Save
