Security Note

There are several permissions required in [Group Administration](#) to see each piece of data on an event's Details page. These are inclusive of, but not limited to:

- Object security permissions to view the event, associated locations, and associated resources
- Basic Options: 3.0 *Register for an Event*
- Basic Options: 4.0 *View Pricing on Events*
- Basic Options: 8.0 *View Audit Trail on Events*

- Basic Options: 8.0 [View Contacts](#)
- Basic Options: 10.0 [View Tasks List](#)
- Basic Options: 14.0 [Send Emails](#)
- Administrative Options: 3.0 [View and Edit Event Registration](#)
- Tools Access: 4.0 [Access to LYNX Tool](#)
- Tools Access: 7.1 [Access to Event Chat](#)

If you are missing a feature that you believe you should have access to, please contact your 25Live administrator.

Each event in 25Live has its own Details page where you can find all of its data, including the event state, occurrence date(s), scheduling contacts, tasks, relationships with other events, assigned location(s), and more.

At the top, the summary lists the event name, event title, event state, event reference ID, dates (including additional time and repeat occurrences), times, location(s), and resource(s) for the event. Use the star icon (☆) next to the event name to add it to your favorites.

The screenshot shows the event details page for 'Student Film Festival'. The event is confirmed and has a reference ID of 2026-AAHNT. It is scheduled for Friday, February 07, 2026, from 8:00 pm to 9:00 pm, with an additional time slot from 7:30 pm to 10:00 pm. The event repeats every other week on Friday through 4/24. The location is BCC Theater. Resources listed include AV - Extension Cords [0 - 1], AV - Laptop - Mac [0 - 1], and AV - Microphone - Hand Held with Cord [0 - 1]. The page includes tabs for Details, Occurrences, Calendar, Schedule, Task List, Pricing, Registration, Audit Trail, and Scheduled Emails. There are also buttons for Register, Edit Event, and More Actions. The event state is set to Confirmed. The page also features a summary of the event at the top.

Image: A summary of the event is located at the top of the event page.

Tip

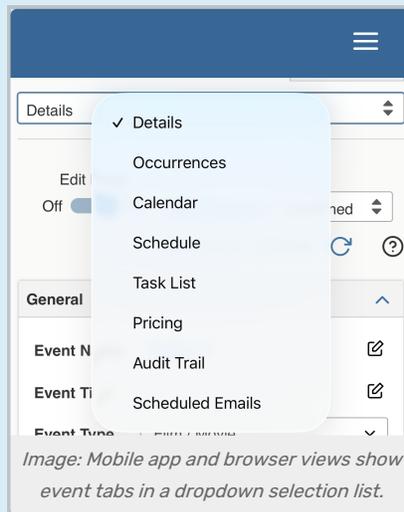

Location, resource, organization, contact, and event names are clickable in 25Live. These links will take you to the Details page for each of these objects.

Event Tabs

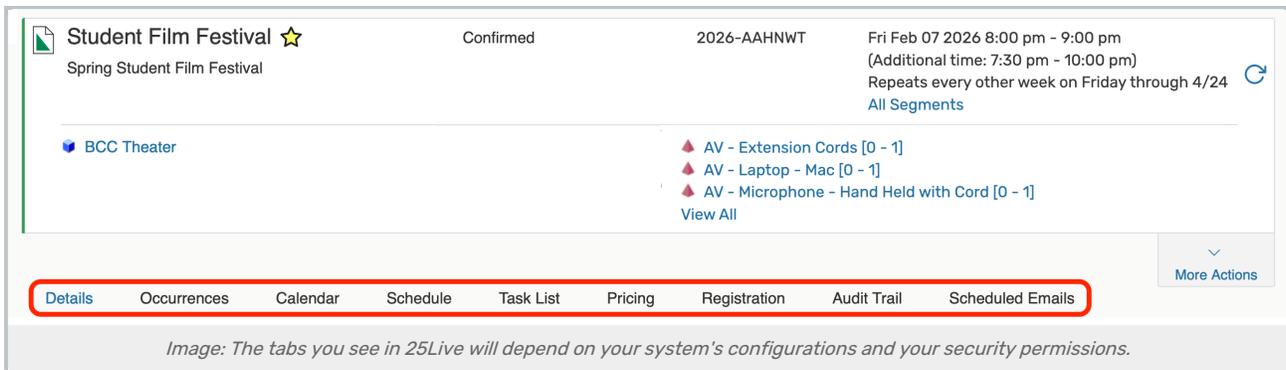

Mobile Note

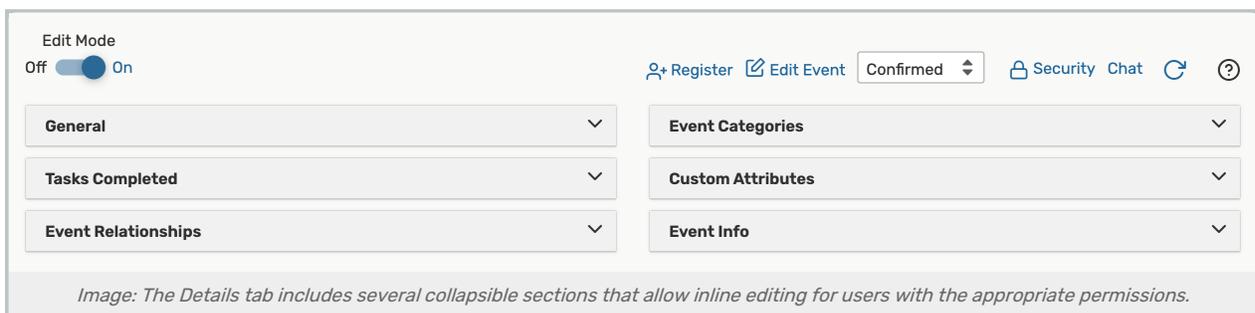

In the 25Live mobile application available for iOS, event tabs appear in a dropdown selection list, as shown below.

Below are descriptions of each of the event details tabs and their uses. Please note that what you are able to view on this page will depend on your security settings and configurations. If there are settings you think you should be able to see or edit, please contact your 25Live Administrator.

Details

- **Edit Mode** - Set the toggle to **On** to enable [inline editing](#).

- **Register** - Click to [register](#) for this event. If you are already registered, this link will be updated to **View Registration**.
- **Edit Event** - Open this event in the [event form](#).
 - For more about Event States, see [Choosing an Event State](#).
- **Event State** - Update the event state.
 - Please note that updating the Event State from the Event Details can [trigger Event Save Email scenarios to send](#).

Note: Full Cancellation Rights Require Unassign Permissions

If the event owner has access to the Cancelled event state but does not have Unassign rights for objects assigned to an event, they will have to request the cancellation. (This scenario assumes that the event owner is not also the scheduler.)

When a user requests cancellation, the system will ask the user to provide the reason for cancelling. Then, a To Do request with that information will be sent to the scheduler, who can then cancel the event.

The dialog box is titled "Event Cancellation Request" and has a close button (X) in the top right corner. Below the title, it says "Please enter a reason for cancelling this event". There is a large text input area for the user to provide the reason. At the bottom right of the dialog, there is a blue button labeled "Request Cancellation".

- **Security** - This link sends you to the [Object Security](#) configuration page for this event in Group Administration.
- **Chat** - Opens an [event chat](#) in [25Live Chat](#).
- **Refresh** - You can refresh the summary using the refresh icon  in the upper-right of the summary area.
- **Help** - Press to be moved to the KnowledgeBase.

Additional event information is available in collapsible sections:

- **General** - This section has all of the basic event information; most of it can be inline edited.
 - *For more information on inline editing, see [Inline Editing Event Details](#).*
- **Tasks Completed** - Lists task statistics with a link to "View this event's Task List".
- **Event Relationships** - Lists the related events (if there are any) with links to view those events' details.
- **Event Categories** - Shows the categories associated with the event and an "Add" link for adding more categories.
- **Custom Attributes** - Shows the custom attributes for this event with an "Add a Custom Attribute" option button.
- **Event Info** - Outline of additional event information, including the requirements, owner, creation date, reference, cabinet, and folder.

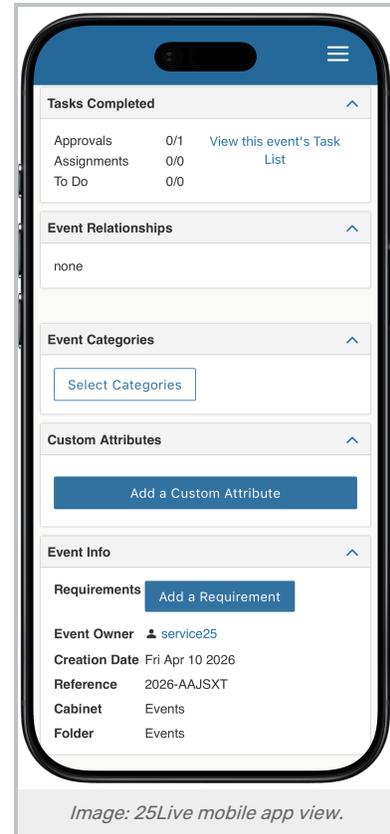

Image: 25Live mobile app view.

For more information, please see [Event Data Overview](#).

Occurrences

The Occurrences tab lists the Date, Start Time, End Time, and Additional Details of each event occurrence. On the left, there are panels for the Event Preferences. If the event has multiple locations/resources, there will also be a Filter by Locations/Resources panel.

For more information, please see [Viewing and Editing Event Occurrences](#).

Event Occurrences

Date	Start Time	End Time	Additional Details
Fri May 09 2025	7:00 pm	9:00 pm	BCC Theater (9 resources)
Sat May 10 2025	7:00 pm	9:00 pm	BCC Theater (9 resources)

Resources:

Calendar

The Calendar tab displays a calendar of occurrences for the event you are viewing.

For more information, please see [Working With Calendar Views in 25Live](#).

Related Events Display Additional Time [Register](#) [Edit Event](#) Sun May 04 2025 - Sat May 10 2025 Weeks: 1 [Help](#)

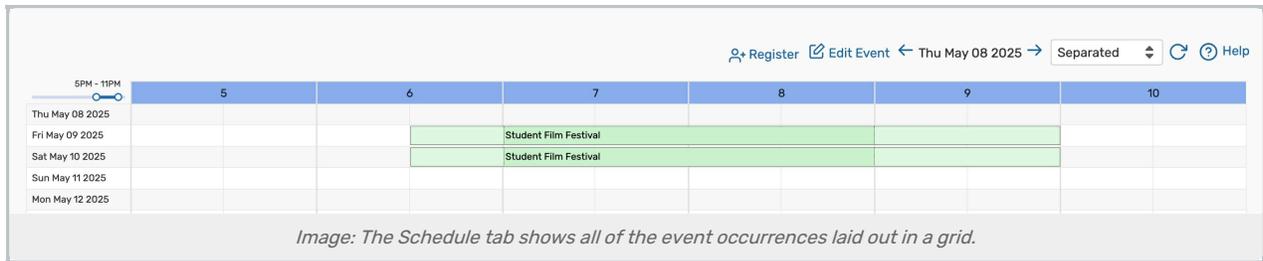

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
May 4	5	6	7	8	9	10
					7:00 pm - 9:00 pm Student Film Festival Register BCC Theater	7:00 pm - 9:00 pm Student Film Festival Register BCC Theater

Image: The Calendar tab shows each of the event's occurrences by week.

Schedule

The Schedule tab shows a color-coded block for each event occurrence in the event you are viewing. The blocks are laid out on a grid to highlight the dates and hours that each occurrence takes place. This view is interactive, allowing you to reschedule occurrences right from the grid. Additional time (pre-, setup, post-, takedown) will show in a differing pattern or shade within the event block. This tab may also display the "Show [Waitlist](#)" checkbox when reservations are waiting for an event block.

For more information, please see [Working With Availability Views in 25Live](#).

Task List

In the Task List tab, the details of tasks associated with this event (or related events) are displayed. This view will look different depending on whether your 25Live instance has [Tiered Workflow](#) enabled.

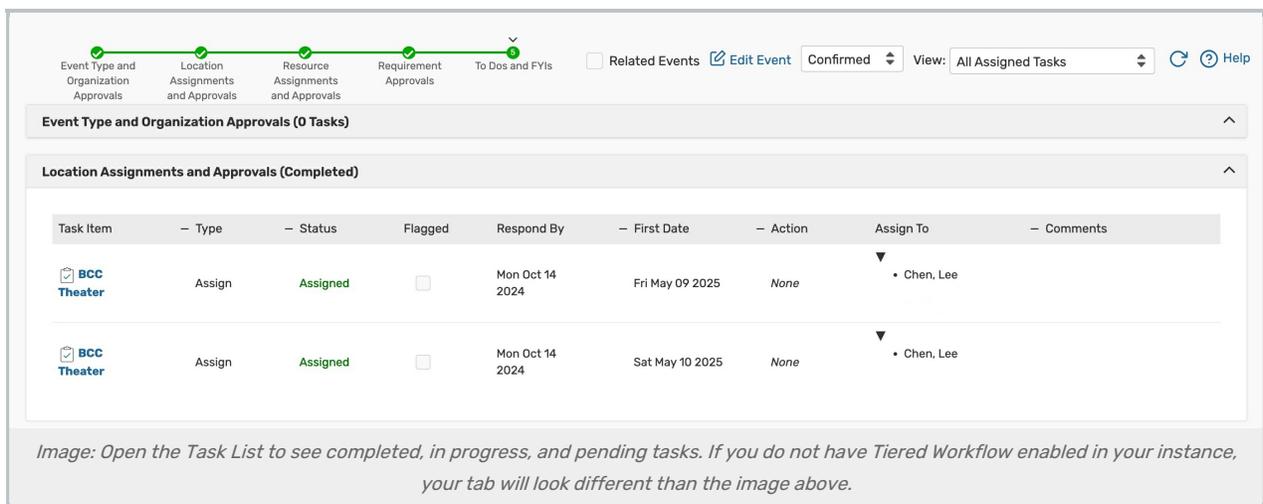

[Tiered Workflow](#) is an automated process that links an event's [tasks](#) together so that they are completed in a predetermined order. This means that some tasks cannot be completed until others have been. Each section of tasks can be expanded and collapsed, and will indicate whether the tasks are completed or pending.

If [Tiered Workflow is not enabled](#) in your instance, a table will display each of the event's tasks, which do not need to be completed in a specific order.

You can use the appropriate action buttons to complete a task:

- **Approve** or **Deny** to complete an approval notification
- **Assign** or **Deny** to complete a location or resource assignment request
- **Complete** or **Ignore** to complete a To Do task

For more information, please see [Viewing Tasks](#), [Tiered Workflow](#), & [Completing Tasks](#).

Pricing

For events that have associated costs, you can use the Pricing tab to make pricing adjustments, export invoices, manage payments, and more.

For more information, please see [Viewing and Modifying Event Pricing](#), [Generating an Invoice](#), & [Managing Payments in 25Live](#).

LYNX

If a 25Live event has been imported via the [Series25 LYNX Interface](#), you can use the LYNX tab to suspend SIS imports and exports for the section you are viewing.

For more information, please see [Pausing a Section from the LYNX Tab in 25Live](#).

Pause Section

No Yes

When a section is part of an active import or export extract set, pausing prevents it from updating in 25Live when it is changed in your Student Information System (SIS) and prevents it from updating in your SIS when it is changed in 25Live.

If you un-pause this section, you must re-import it via LYNX to ensure that 25Live reflects what is in your SIS.

Image: The LYNX tab has a Pause Section toggle that can be used to suspend imports and

Audit Trail

The Audit Trail tab displays a sortable table of changes to this event. Tap or click the **Date**, **User**, or **Action** column headings to sort by those columns.

For more information, please see [Viewing an Event's Audit Trail](#).

Date	User	Action	Additional Information
Mon Oct 14 2024 2:41 pm	southcampus.requestor	Create	Created Student Film Festival
Mon Oct 14 2024 2:41 pm	southcampus.requestor	State Change	Initial event state as Tentative
Mon Oct 14 2024 2:42 pm	southcampus.requestor	Email Sent	Your event has been confirmed (2024-AAHNWW)
Mon Oct 14 2024 2:42 pm	southcampus.requestor	Email Content	Your event Student Film Festival has been confirmed. Organization Name: STUDENT CENTER Event Time: 5/9/25, 7:00 PM - 5/10/25, 9:00 PM

Image: Use the Audit Trail to see a record of changes made to this event.

Scheduled Emails

The Schedule Emails tab shows a record of scheduled emails, including those created from the Email Event section of the More Actions menu or from [Event Save Emails](#).

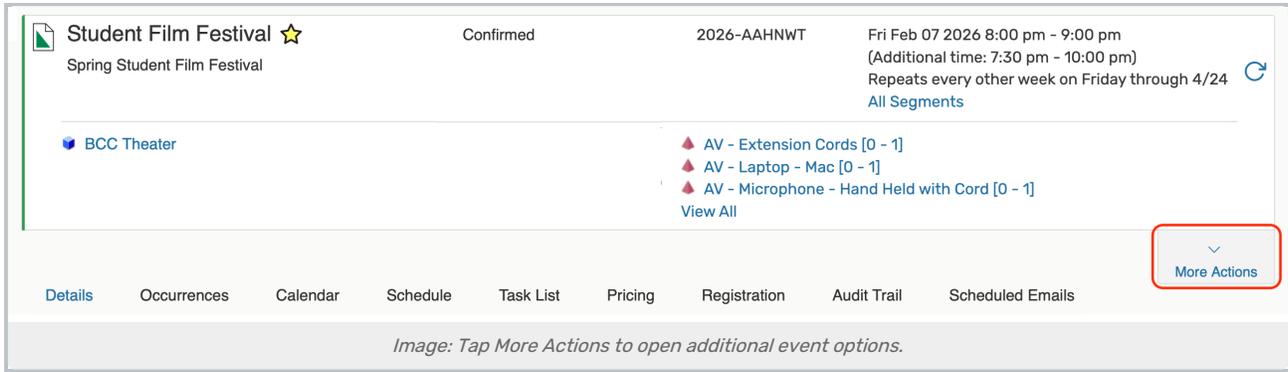

For more information, please see [Saving, Printing, Emailing, and Scheduling Reports](#).

Manage Bindings

Create or edit events that are bound to this one.

For more information, see [Creating Event Bindings & Removing Event Bindings](#).

The screenshot shows a toolbar with various icons: Edit Event, Copy Event, Related Events, Manage Bindings (highlighted), Create Task, Print Report, Email Event, Delete Event, Create Event, Edit Ownership, Subscribe, and Collapse. Below the toolbar is a modal window titled "Manage Bindings" with a close button (X). The modal contains the text: "Student Film Festival (2024-AAHWW) is not currently in a bound event set" and a blue button labeled "Add Events to Set". At the bottom of the modal, there is a caption: "Image: Add and remove event bindings from the Mange Bindings section."

Create Task

Create and assign a To Do task.

For more information, see [Creating To Do Tasks](#).

The screenshot shows a toolbar with icons: Edit Event, Copy Event, Related Events, Manage Bindings, Create Task (highlighted), Print Report, Email Event, Delete Event, Create Event, Edit Ownership, Subscribe, and Collapse. Below the toolbar is a modal window titled "Create Task" with a close button (X). The modal contains several fields: "Task Name:" with a text input field; "Comment:" with a larger text area; "Assigned To:" with a dropdown menu showing "service25" and an "EDIT" link; "Due Date:" with a date picker showing "Mon Oct 28 2024"; and "Assigned By:" with the text "service25". A blue "Create" button is located at the bottom right of the modal. At the bottom of the modal, there is a caption: "Image: Use the Create Task button to create a To Do for yourself or another user."

Print Report

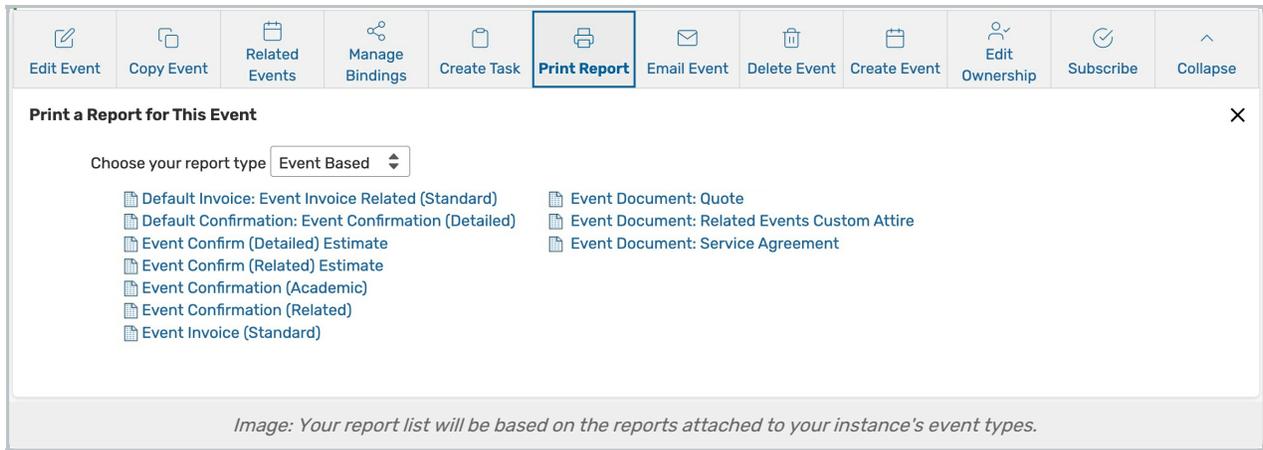

Print a report (including invoices, if one has been defined for the current event type) or a custom document using information from this event.

Note: Setting Default Reports

Administrators can set the default confirmation and invoice reports in [System Settings > Master Definitions > Event Types](#).

For more information, see [Utilizing Custom Documents](#), [Defining a Custom Report](#), & [Adding and Editing Event Types](#).
