About 25Live

The Advanced, Sophisticated Scheduling Tool for All Users

25Live is the full-featured scheduling tool in Series25, with a simplified version for basic users who just need to search, check availability, and make scheduling requests. And 25Live is also flexible and powerful enough to accommodate users at all levels who need more advanced features, complex class and event scheduling, reports, data management, accounting, approvals, and more. Features include:

- Simplified, consolidated navigation
- Unified master search
- Drag-and-drop functionality, including occurrences
- Inline editing functionality for Event Details
- A single invoice for related event sets and the ability to refresh a previously generated invoice with updated event data
- Expanded features for (-1) system administrators

Features and Benefits

All-inclusive academic and event scheduling capabilities with expanded features for administrators

How does 25Live fit into Series25?

25Live is both the everyday user's starting place and a tool built for scheduling professionals with the power to create and administer complex events and courses, publish calendars, utilize accounting features, run reports, and more. 25Live is a valuable tool for power schedulers and functional experts who need to manage multiple aspects of academic and event scheduling, and it includes mobile compatibility for working on the go. Data is shared with the Series25 Optimizer, the Series25 LYNX Interface, the X25 Analytics master planning and analytics tool, and all Series25 tools.
