# Using System-Supplied Event Master Definition Items

In addition to the Master Definition items you create, 25Live includes a number of system-supplied event master definition items which are marked with a negative ID number and have **Delete** and **Force Delete** buttons that are grayed out. These items can't be deleted, but can be deactivated.

System-Supplied Definitions

The system-supplied Master Definitions available in your instance may vary from those listed below.

Event Categories

- **Export to vCalendar** - (Not currently in use.)
- **Hot Event** — Used by the system as the criterion for the default search displayed to non-signed-in users.

Event Contact Roles

- **Instructor** — Used to designate the instructor of a class. If the Series25 LYNX Interface is configured to import instructors, it will populate this event role automatically.
- **Requestor** — Used to designate the name of the 25Live user who created an event or event draft.
- **Scheduler** — Used to designate the name of the 25Live user who created an event or event draft. If a default scheduler has been specified in 25Live, the system automatically enters that name in this role.

Organization Contact Roles

- **Billing Contact** — Used to designate the name of the contact who pushes events to the 25Live accounting system.

Event Custom Attributes

- **Allow Registration** — Used as a part of 25Live Event Registrations.

- **Conflict Decide**r - (Not currently in use.)

- **Detail Image** — Used to specify a URL to appear in 25Live Publisher calendar event detail views.

- **Event Image** — Used to specify a URL to appear in 25Live Publisher calendar spuds that include images (most often thumbnails).

- **Hot Event Image** - (Not currently in use.)

- **Priority Override** — Used to specify that an event's location assignment shouldn't be removed by the academic priority feature, which normally gives location assignment priority to classes.

- **Registration** — Used as a part of 25Live Event Registrations.

- **SIS Bound Reservation Missing** - (Not currently in use.)

- **SIS Sync Paused** - Used to indicate that an event imported from LYNX has been paused

- **Outlook Calendar ID** - Used to identify calendars for Outlook integrations.

- **WDYT Event Survey** - (Not currently in use.)

- **Web Site** — Used to specify the URL of an event's promotional website.

- **X25 CIP Code** - (Not currently in use.)

Location Custom Attributes

- **Latitude** - Used to designate the latitude of an event location for use by maps in location detail displays.

- **Longitude** - Used to designate the longitude of an event location for use by maps in location detail displays.

- **Map** - Most often used to specify a URL to a campus map PDF with an event's location highlighted.

- **X25 Assignable Area** - Used to specify the net assignable square feet of a location.

- **X25 Floor Number** - (Not currently in use.)
