

# Permissions in Series25 Group Administration

In This Article:

- [Basic Options](#)
- [Administrative Options](#)
- [Academic Options](#)
- [Tools Access](#)

This guide shows a full list of the Yes/No security options in the Series25 Group Administration tool. Each Security permission is sorted into one of four tabs: Basic Options, Administrative Options, Academic Options, and Tools Access.

## Basic Options

#	Groups Option	Former Admin Utility Security Right	Additional Information
1.0	Create Events	Events > Event Wizard Events > Events	<p>If set to "Yes," users in the group will be able to create events using Express Scheduling in 25Live, but only for locations where they have <a href="#">appropriate permissions</a>.</p> <p>This setting is required for further permissions involving event creation or editing. If you want users to be able to create events using the Event Form but not Express Scheduling, remove their permission to assign locations as described in the link above.</p>

#	Groups Option	Former Admin Utility Security Right	Additional Information
2.0	Create and Edit Events Through the Configurable Event Forms	Events > Event Wizard Events > Events	To restrict a group's ability to assign certain locations or resources to events, use object security and/or Event Form configuration.  To prevent a Group from creating and editing Event Drafts, see <a href="#">Security Group Preferences Configuration</a> .
2.1	Manage Event Relationships and Binding	Events > Related and Bound Events	
2.2	Inline Editing on Event Details	Events > Edit Inline	This also grants the ability to <a href="#">edit events in bulk</a> .
2.3	Share Locations with other Events	Events > Share Locations	
2.4	Delete Events	Events > Delete Events	
2.5	Change Event State	Events > Change Event State	To specify the Event States a group can change, see <a href="#">Security Group Preferences Configuration</a> .
2.6	Uncancel Events	<i>None</i>	Allows users without 2.5 to use the Event State field to uncancel
2.7	Override Location Blackouts	Locks and Overrides > Override Location Blackouts	
2.8	Override "Blocked by" Relationships	Locks and Overrides > Override Blocked by Relationship	
2.9	Override Location Open/Close Hours	Locks and Overrides > Override Location Open Hours	
3.0	Register For Event	N/A	

#	Groups Option	Former Admin Utility Security Right	Additional Information
4.0	View Pricing on Events	Pricing and Invoicing > Rate and Tax Schedules  Pricing and Invoicing > Event Details Pricing	
4.1	Edit Pricing on Events	Pricing and Invoicing > Rate and Tax Schedules  Pricing and Invoicing > Event Details Pricing	
5.0	View Description, Comments, and Confirmation Text	Events > Description and Confirmation Notes	To restrict a group's ability to edit Description and Occurrence Comments, use Event Form configuration.
6.0	View Event Internal Notes	Events > Internal Notes	To restrict a group's ability to edit Internal Notes, use Event Form configuration.
7.0	View Contacts	Contacts > Contact Access	This allows a user to view contact information in event details, reports, and other areas.
7.1	Edit Own Personal Contact Information	Contacts > Contact Access	This allows a user to edit only their own contact information. Look in the Administrative permissions tab for the ability to edit others' contact records.

#	Groups Option	Former Admin Utility Security Right	Additional Information
8.0	View Tasks List	Tasks, Reports, and Email > Tasks Lists  Tasks, Reports, and Email > View Others' Tasks	
8.1	Cancel Task Requests	Tasks, Reports, and Email > Cancel Task Requests	
8.2	Create To Do's	Tasks, Reports, and Email > To Do Tasks	
9.0	View Organization Accounting Codes	Pricing and Invoicing > Organization Accounting Code	
10.0	View Organization Comments	Organizations > Comments	
11.0	View Organization Ratings	Organizations > Organization Rating	
12.0	Send Emails	Tasks, Reports, and Email > Send Emails	
12.1	View and Use Email Templates	N/A	

#	Groups Option	Former Admin Utility Security Right	Additional Information
13.0	View All Event Master Definitions (Not Just Abridged List)	Searches and Master Definitions > Event	If set to "No," users in the group can only see the abridged list in <a href="#">25Live System Settings Master Definitions</a> .
14.0	Basic Location Searching	N/A	
14.1	Advanced Location Search and Manage Personal Searches	Searches and Master Definitions > Location Search	
15.0	View All Location Master Definitions (Not Just Abridged List)	Searches and Master Definitions > Location	If set to "No," users in the group can only see the abridged list in <a href="#">25Live System Settings Master Definitions</a> .
16.0	Basic Resource Searching	N/A	
16.1	Advanced Resource Search and Manage Personal Searches	Searches and Master Definitions > Resource Search	
17.0	View All Resource Master Definitions (Not Just Abridged List)	Searches and Master Definitions > Resource	If set to "No," users in the group can only see the abridged list in <a href="#">25Live System Settings Master Definitions</a> .
18.0	Basic Organization Searching	N/A	
18.1	Advanced Organization Search and Manage Personal Searches	Searches and Master Definitions > Organization	

#	Groups Option	Former Admin Utility Security Right	Additional Information
19.0	View All Organization Master Definitions (Not Just Abridged List)	Searches and Master Definitions > Organization	If set to "No," users in the group can only see the abridged list in <a href="#">25Live System Settings Master Definitions</a> .
20.0	Change 25Live Password	Contacts > Change Password	This only affects a user's ability to change their Series25 password. It has no effect on a single sign-on method where the user's credentials are managed outside of Series25.
21.0	View All Contact Master Definitions (Not Just Abridged List)	Searches and Master Definitions > Contact	If set to "No," users in the group can only see the abridged list in <a href="#">25Live System Settings Master Definitions</a> .
22.0	View Location Ratings	N/A	When set to "Yes," users in the group can view Location Satisfaction data in the <a href="#">Location Details</a> view of 25Live.  The benefits of Location Satisfaction scores are available to licensees of Eval25 ( <a href="#">learn more</a> ). If you would like to explore course, event, and location evaluation abilities, <a href="#">talk to your account manager</a> .

## Administrative Options

### Tip: Combining Permissions For Specific Actions

To view some combinations of permissions needed to provide access to specific actions, please see the corresponding 25Live help pages. Examples:

- [Bulk Editing Locations, Bulk Editing Resources, Bulk Editing Organizations](#)
- [Working With Master Definitions In 25Live](#)
- [Event Save Email: Creating, Copying, and Editing Scenarios](#)
- ...and more that can be found by searching

#	Groups Option	Admin Security Right	Additional Information
