

25Live Configuration Utility – New Feature Locations

CollegeNET retired the Configuration Utility as a separate entity on September 30, 2021. Its functionality has been redistributed between [25Live System Settings](#) and [Group Administration](#). Please refer to the guide below for instructions on how to find these settings.

Area	New Home	Notes
Application Tab		
System Defaults	25Live System Settings > System Defaults	Requires system administrator permissions.
Date/Time Defaults	25Live System Settings > Date and Time Defaults	Requires system administrator permissions.
User Defaults	25Live System Settings > User Defaults	Requires system administrator permissions.
Email Defaults	25Live System Settings > Email Defaults	Requires system administrator permissions.
Remove ASV Cache	Not implemented	25Live's new codebase removes this necessity.
Event Form Tab		
Configuration Files	Not implemented	The former "Basic" option has been incorporated into a default custom configuration.
Custom Configurations	25Live System Settings > Event Form Settings	Requires "Update User Group Configurations" permissions.
Default Schedulers	Group Administration > Security Group Preferences Configuration	Requires system administrator permissions.
Security Group Options	Group Administration > Security Group Preferences Configuration	Requires system administrator permissions.
Default Event State	25Live System Settings > Event Form Settings	Requires system administrator permissions.
Email Options	Not implemented	Replaced by Event Save Emails .
Events/ Locations/ Resources/ Organizations/ Tasks Tabs		
User Defaults	25Live System Settings > User Defaults	Requires system administrator permissions.
Master Definition Visibility	25Live System Settings > Master Definitions	Controlled via the "abridged" toggle when editing master definitions. See the linked help page for required permissions.
