## Goals

By the end of this seminar, participants will be able to:

- Understand the metrics associated with the Scheduling Effectiveness, Inventory Fitness and Utilization reports
- Understand the issues, problems and questions that each report helps answer
- Modify the parameters that affect each of the X25 reports
- Create and save parameter sets
- Use the filtered data sets related to classes/events, rooms and organizations
- Model the effects of simulated changes to your scheduling data (e.g., taking a building offline)
- Design an X25 Project and analyze the metrics and benchmarks for effective decision support

## Description

Learn to use X25 to answer pressing questions about space usage and scheduling on your campus. This two-day seminar provides a hands-on opportunity for you to explore X25 functionality in depth.

## Intended Audience

Anyone who uses X25 to provide, receive or use space management information for the campus – registrars, institutional researchers, facility planners, provosts, deans of instruction and academic affairs, and master schedulers.

## Schedule

Provided over two (2) consecutive days, 8:30 a.m.-4:30 p.m.

## Prerequisites

- X25 must be currently licensed.
- Institution's X25 site must contain at least one complete snapshot of academic course data (i.e., a semester's worth of academic classes).

## Fee

Cost is for in-Portland only. Please contact your account manager for pricing information.

## Next Class Offered
