

05/12/2022 – 25Live

Last Modified on 05/12/2022 7:29 pm PDT

- Draft and requested events now leverage custom [coloring of events on availability grids](#) to better reflect the event type color
- The [Pricing tab](#) in Event Details now doesn't show inactive rate groups when adding an adjustment
- Fixed custom attribute [template variable](#) to display the value rather than the ID
- Ensured an alert is shown to the user when they have insufficient permissions to [change an event](#)
- Auditing and adjustments to ensure functional security is enforced properly across the application
- Better accessibility in legend displaying custom colors for availability grids
