

Eval25 FAQ

What is Eval25?

Eval25™ is a faculty and course evaluation system used to gather feedback from students for the purpose of improving their learning experiences.

Some features include...

- Customizable forms that allow you to determine your own questions to collect exactly the information you need.
- Powerful tools for creating customized reports, exporting in Excel or XML formats for further analysis and comparison, or printing them as PDFs.
- Real-time response activity tracking and reminders that can be sent to responders. Results can be available as soon as 24 hours after each evaluation period, allowing you more time to factor evaluation data into scheduling and course offering decisions.
