Setting Your Time Zone in Eval25

You can use Eval25 configuration tools to set your time zone for system use. This setting affects all time displays in the system.

Configure your Timezone

1. Open the Timezone Settings

Timezone Setting is located under the Configuration tab.
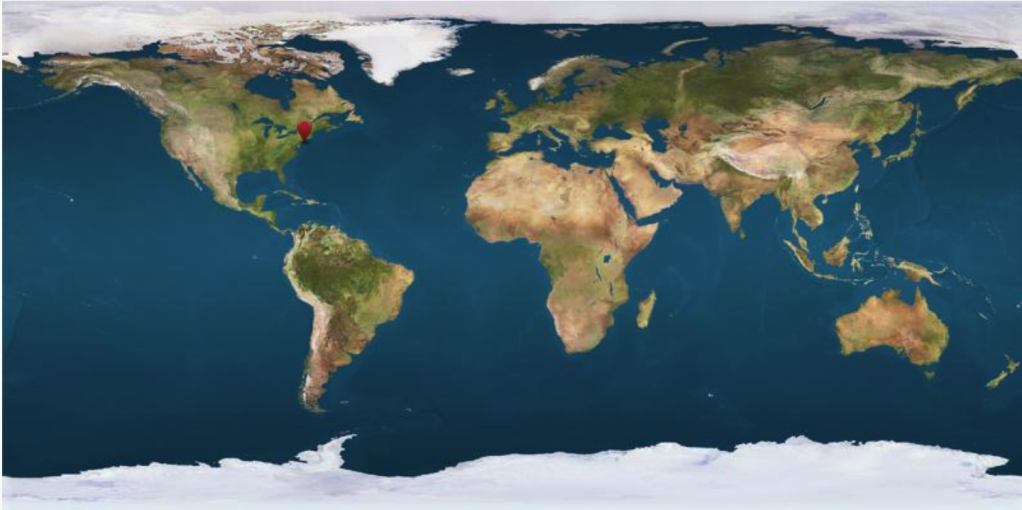

2. Choose Your Time Zone

Choose your **Time Zone** and **Country** from the dropdown lists OR click the time zone area on the interactive map.

3. Save

Click **Save Setting.**
