

02/23/2023 – Series25 Group Administration

Last Modified on 02/23/2023 3:43 pm PST

- Ensured changes made to two or more groups under *Configure > [Security](#)* remain implemented upon change
 - When adding a date exception to a location with no pre-existing [date exceptions](#), the header summary will properly reflect the date of the exception added
 - Resolved browser error navigating away after copying or deleting a group
 - Fixed issue with "No Rows to Show" displaying when going to *Configure > [Email Notification](#)* after copying a group
 - Added warning when editing security for your own (non -1) group
 - Improved loading performance
-
