

Text Content Boxes in Eval25

Last Modified on 09/26/2023 2:23 pm PDT

The Text Content boxes configured in **Configuration > Text Content** are located in several places, serve a variety of purposes, and can contain both standard and custom text boxes. For example, all schools using Eval25 will be able to set text for the first box, **Home Page Greeting With Evaluations Completed**, but a school may also have custom evaluation forms on the Text Content page too. The article addresses the 15 standard text boxes (*Setting Name*) and where they appear (*Where it Displays*) in Eval25

Note

For more information on Text Content boxes, please see [Customizing Text Content](#)
