

March 2023 – LYNX Interface Patches

Last Modified on 04/05/2023 3:30 pm PDT

- Deprecated the GET educational-institutions API for Ethos to avoid returning unnecessary data and improve initialization processing time.
 - Corrected the underlying issue that could prevent crosslist data from initializing in Workday instances.
 - Corrected functionality where sections imported from lynx—after exclude dates are set up on the cabinet/folder in 25Live—could be missing exclude dates if the exclude constraint was a single non-repeating day.
-
