05/04/2023 - Eval25

Last Modified on 05/11/2023 2:39 pm PDT

- Added filters to the Report Browser so that users can retrieve the courses based on the selected fields, such as locations
- Added multi-select functionality to the Report Browser for terms
- Added a preferred name option to the announcement data field list in Announcements
- Users can now add preferred name data through XML file upload using <instructor_preferredname> <student_preferredname>
- Status Tracking reports can now be exported as Excel files
- Many institution settings now have a pencil icon next to them, indicating that they can be updated by Eval25 administrative users
