05/30/2024 - Series25 Group Administration

- New bulk delete option was added for managing group members
  - *Based on a Series25 Feature Upvote request*

- Restricted the Primary Organization for an event to choose between the requestor's object security restrictions, organizations the requestor is associated with, or organizations the requestor has a specific role for in the Event Form Configuration settings
  - *Based on a Series25 Feature Upvote request*

- Updated wording in Event Form Presentation view for clarity

- *06/12/2024 Patch:*
  - Ensured the event form presentation fully loads on the page when a single organization or organization role is selected, and the Save and Cancel buttons will now only be active when needed

  - Fixed display issue in header if custom institution logo height is less than 60 pixels
