

## 08/22/2024 – Series25 Group Administration

- Updated summary of action wording presented after successfully saving updates to [permissions](#)
  - Fix for only updates made on last page of Event Form Presentation changes being saved (*activated with 25Live changes on 8/29*)
  - Preparation for new Admin permission that adjusts Functional Security to separate the View permissions in Event Form Configurations from the ability to edit them (*to be released with 25Live changes on 8/29*)
  - Work done to add new permission in the Basic section, "8.0 View Audit Trail on Events" that will limit viewing of the Audit Trail tab in the Event Details View in 25Live (*to be released with 25Live changes on 8/29*)
  - *Patch 09/20/2024:*
    - Systems Tags are now copied along with other data when a security group is copied
-
