

01/16/2025 – X25 Analytics

- New ability to embed [Schedule Distribution](#) and [Demand by Time](#) reports in your website(s) *(for licensed X25 Analytics customers)*
 - The order of Display Option settings is now consistent across reports
 - Users now have the option to see the underlying value in the bars of bar charts
 - Improved accessibility and general readability in the [Location Usage](#) report with added axis titles
 - Added message in the [Data Filter](#) page if an updated snapshot impacted the data displayed
 - Ensured all detected meeting patterns are properly presented in standard schedules and the [Time Mappings](#) view
 - Improved support for customers with more than one corresponding LYNX Interface instance
-
