01/16/2025 - X25 Analytics

- New ability to embed Schedule Distribution and Demand by Time reports in your website(s) *(for licensed X25 Analytics customers)*
- The order of display option settings is now consistent across reports
- Users now have the option to see the underlying value in the bars of bar charts
- Improved accessibility and general readability in the Location Usage report with added axis titles
- Added message in the Data Filter page if an updated snapshot impacted the data displayed
- Ensured all detected meeting patterns are properly presented in standard schedules and the Time Mappings view
- Improved support for customers with more than one corresponding LYNX Interface instance
