

## 03/13/2025 – X25 Analytics

- Users can now [embed](#) all Section Analytics reports
  - Added an “Unfiltered” [option](#) to the [Data Filter](#) dropdown that allows users to view their snapshot data with no filter applied (with specific settings for some discrete variables)
  - The [Room vs. Seat Utilization](#) report now defaults to the “Building” grouping
  - The maximum capacity and headcount options for Data Filters were increased to match 25Live
  - Fixed an issue that prevented latitude and longitude settings added later from overriding a listed address for locations in the [Traffic Map](#) report
-
