05/08/2025 - X25 Analytics

- An updated preview option in Embedding generates a unique URL and has been formatted for improved readability.

- Restored link functionality to the 25Live Event Details from the View Data modal in the Demand by Time report.

- Users that have project Edit, Copy rights can now remove objects from Lists.

- Improvements made to the handling of back-to-back and non-overlapping bound sections, including retaining their headcounts and counting them as two separate events.
