

05/29/2025 – 25Live Reports

- ***New Standard Reports***
 - "Cabinet/Folder Security - CSV"
 - "Invoice (Payment) Aging"
- ***Improvements and Fixes Existing Reports***
 - Added grid view worksheet to the "Layouts by Location - Excel" report
 - Updated an incorrect name within "Event Security - Excel"
 - Added invoice level adjustments to the "Invoice Payments - Excel" details worksheet, improved users' ability to compare between sheets, and ensured the adjustments for standard invoices also appear
 - The "User List - Excel" report now also displays users' last logged in date
 - Ensured the "Location Definitions" report specifies the default layout consistently with an asterisk
 - Updated "Report Listing - Excel" with additional scheduled report options, and improved labeling of object-specific reports
 - Fixed issue with distribution reports when attempting to evaluate comparison periods
 - Prevented the "Standard Schedules - Excel" report from repeating distinct meeting patterns
