

06/05/2025 – X25 Analytics

- Enabled [embedding](#) for the "[Class/Event Placement by Room](#)" and "[Critical Time Usage](#)" reports
 - Corrected the scale of the Limit slider in many reports to use a top 1-5 properly
 - More responsive layouts for different size devices in the [Data Filter](#) and Default Data Filter views
 - Fixed the [Standard Schedule](#) creation page to ensure that user-input times do not exceed maximum hour and minute values
 - Migrated several application elements to newer code base
-
