

Winter 2026 – Series25 LYNX Interface

- Workday schools can now select "Subject Short Description" (`dbo.ss_Course_Subject.Abbreviation`) in addition to Subject Code (`dbo.ss_Course_Subject.Course_Subject_Reference_ID`) or Subject Description (`dbo.ss_Course_Subject.Course_Subject_Name`) to use in translation rules for Subjects
 - Workday environments will now detect and initialize new reference data automatically
 - Workday environments have been updated to version 45.0
 - Fixed issue when re-importing an *Import Extract Set* where the link directed users to the wrong page
 - Ensured paused, imported exams in 25Live no longer receive LYNX import update
 - Workday instances can now import and translate [SIS location feature preferences to 25Live event categories](#) AND [SIS course section tags to 25Live event categories](#)
-
