03/05/2026 - Group Adminstration

- Academic Options 4.0 setting has been relabelled from *Use the Schedule25 Optimizer and the Meeting Pattern Grid* to *Use the Schedule25 Optimizer, Optimizer Effective Dating, and Meeting Pattern Grid*
- The name column in permission tables (such as the *Location Security > Object Security* table) is now wider for improved readability
- Improvements have been made to zoom functionality when viewing tables, which allows for more objects to be in view at once
- The warning message in *Members > Actions > Edit User Password* entry has been corrected to indicate that 28 characters can be used, not 40
