

04/09/2026 – X25 Analytics

- Bound set improvements have been made to event tables (e.g., Events by Organization).
 - Note that when viewing tables that have grouped data, only members that belong to that grouping are considered/displayed. For sections that are members of a bound set, this could omit meetings that would be used to calculate standard schedule compliance or be grouped together for display within the table.
 - A warning message has been added to the Standard Schedule import page alerting users that schedules will be immediately added to the selected standard schedule.
-
