

05/11/2026 – 25Live Reports

- Added a new [standard Excel report](#), Monthly Summary By Org and Location, that summarizes event data grouped first by organization and then by location, outputting a native .xlsx file.
 - Changed the output for standard Excel reports so that they now generate as improved, compressed, native .xlsx files
 - Added an optional location search parameter to the [Document Management](#) Event Listing Excel report scope and the Standard Event Listing Excel report, allowing users to filter report results by location
-
