06/19/2026 - Series25 LYNX Interface

- Fixed incorrect registered head counts displaying in 25Live when enrollment totals in the LYNX database differed from the values shown in the event record
- Resolved a null ID error that occurred during SectionRegistration staging, which prevented enrollment data from being processed correctly
- Addressed a data truncation error that occurred when staging course section data containing long course listing reference IDs
- *06/22/2026 Patch:*
  - Fixed an issue where Workday paginated initialization requests with more than 51 pages caused those pages to fail with an invalid request error from Workday
- *06/25/2026 Patch:*
  - Resolved an issue where an incorrect timezone offset was applied to section times for Ethos/Colleague instances, causing section start and end times to import into 25Live incorrectly
  - Fixed a Workday staging error that prevented SIS Sync from completing when a worker record contained a null last name value
