

08/13/2026 – Series25 LYNX Interface

- A new organization and contact configuration [setting](#) is available to Campus Solutions schools which allows them to specify which SIS table should populate the faculty name source field when Include Section Instructor Names is enabled
 - A new audit trail is available for extract sets and shows timestamped revision details
 - Fixed background issue that could cause headcount imports to get stuck
 - Improvements have been made to the way that the initialization progress bar paces
 - [System logs](#) can now be filtered by event type, level, and date range
-
