

08/27/2026 – Connect25

- Administrators can now configure Event Edit and Organization Edit forms.
 - Several Connect25 Elections improvements: organization field selection is cleaner, election descriptions are shown within the nomination context, the voting rules "Add Rule" button label is more descriptive, role selection now supports multi-select, ballot "Save Progress" closes the form correctly, and users can toggle between multiple available elections without a page refresh.
 - Users without Chat access no longer see the Chat sidebar, Chat page, unread indicators, or the Chat option in My Workflow.
 - Users with email send permissions can now reply to threaded email conversations directly from Connect25 Sent Mail.
-
